

#### Design Goal:

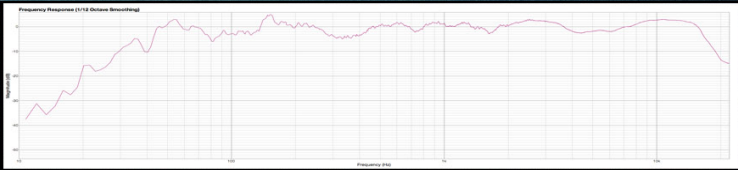

To make aesthetically pleasing speakers that have a large frequency range. The use of a transmission line and sealed upper drivers both allow for low bass extension and a visible interior of the upper box.

#### Key Features:

- 13 Foot TransmissionLine for the Sub that extends the low end
- 3 way system (Woofers are dummy speakers)
  - Visible interior of upper box
  - Visible Crossover

#### Dimensions (Each):

- 5' 4" Tall
- 2' x 2' Base
- 350 lbs
